

**Reference for Student applying for an International Clinical Placement**

October 31, 2013.

Mr./Ms. *student name* is currently enrolled in the Physical Therapy Program at *name of University*. He / she is currently in the *state current year* year of the *state length of program* year program and will graduate with a *state degree* degree. She/he is currently applying for an international clinical internship in Canada.

Students studying abroad are ambassadors for their Department, their University and their nation, and, have a responsibility to favorably and respectfully represent all these groups. Students must be able to adapt to different cultures, have a high level of academic ability (a minimum of 75% average) and demonstrate clinical competence in previous clinical internships. Students are required to obtain two references, one academic and one clinical, to assist in determining their suitability in doing an international internship.

Please rate this student on the following attributes:

	Exceptional	High	Moderate	Low	Unable to judge
Treats others with positive regard, dignity and respect					
Presents self in a professional manner					
Communication with others					
Academic knowledge					
Clinical ability					
Coping and adaptability					

I would recommend this student for an international clinical placement: YES / NO
